

## **Juche Idea Great Treasure of Mankind**

The Korean People along with the world progressive people are commemorating the 110<sup>th</sup> Birthday anniversary of President KIM IL SUNG with growing yearning for him.

April 15, his birthday, was a great event that heralded the liberation of Korea over which the dark clouds of national ruin hung heavily and that ushered in an era of Juche Korea in the 5000 year history and the holiday of the eternal Sun that Provided a bright future for the working people.

President KIM IL SUNG a great leader of Korean people, who performed the greatest exploits in the ideological history of mankind. Mankind had long tried to find ways of carving out destiny. Some worshipped gods, others adhered to different ideas or theories, believing that they would answer the purpose. But none of them showed the popular masses way to independence, their lifeblood, and to genuine life.

President KIM IL SUNG found the Principle that revolution should be made by believing in one's own people and according to one's own view, thus propounding the Juche idea.

The establishment of the Juche Idea based on the principle of independence was a historic declaration signaling a new development of the revolutionary ideas of the working class and a land mark in the history for the emancipation of humankind.

Considering that the basic mission of philosophy is to show mankind how to hew out its destiny, the juche idea, which represents and anthropocentric philosophical world outlook of the working masses on the highest level.

The reality well proves that the Juche idea illuminating the road of independence is indeed the banner of the anti-imperialist struggle and the scientific guidelines of progress and prosperity in the present era.

The Juche idea is an immortal guiding ideology that guarantees the bright future of mankind.

The Juche idea puts the anti-imperialist struggle as the first task to implement the cause of global independence imperialism is the dominationist force that tramples down independence of the popular masses and the main obstacle that checks the common development of humankind without the struggle against imperialism, it is impossible to build a fair and peaceful world.

The truth, scientific accuracy, correctness and vitality of the Juche idea has been demonstrated in socialist Korea.

The ever-victorious workers party of Korea, the strong DPRK independent in politics, self-sustaining in the economy and self-reliant in national defense, the Korean style socialism centering on the popular masses are all the precious outcomes of the Juche Idea.
