

KFA Finland wishes to congratulate the Korean People's Army on its 75th Anniversary for protecting Socialist Korea despite the hardships and sanctions placed by the "world police" called USA. Their attempts to destroy Socialist Korea have failed.

The KPA has defended the DPRK for 75 years. A country that protects the worker's interests above all. KFA Finland supports DPRK's right for self defence and wishes best of luck with DPRK's missile program.

Long Live DPRK and Korean People's Army!

Nico Pasanen
