

Dear,

Distinguish Guest, Comrades, Ladies and Gentlemen,

Permit me to bring you a Revolutionary greetings from our comrades in Ghana to you.

It is my honour to welcome you all to this memorable day of our beloved Brothers and Sister of North Korea. It is our pride that through the power of the North Korean Working Class Army (The Invincible Korean People's Army) the Great North Korean Revolution was born. We salute the braveness of our Brothers and Sisters from North Korea, by laying down their lives in making Scientific Socialism a reality today.

Not only North Korea is proud of you, but the whole world, especially those of us in Africa in general and Ghana in particular. Your determination and patriotic spirit behind your Revolution, is a shining beacon to all of us. Through your effort, you make North Korean Scientific Socialism, A Giant Mountain, who we all look up to as a Socialist Mother of the world today.

You are able to show to the world, that, it is possible to build heaven and paradise on Earth where free shelter, food, education and human development are possible for all. Your successful enviable socio-economic self-reliance agenda, has proven to the whole world that, it is possible to free ourselves from imperialist economic exploitation and subjugation of the world. We pray and hope that your tenacity in human development and industrial innovations through the power of your Revolution, will electrify all of us to emulate you, in order to make the world a Paradise and a peaceful place like North Korea.

Long Live The Great Leaders of North Korea,

Long Live The Scientific Socialist Revolution of North Korea

And Long Live The Invincible Korean People's Army.

Thank you.

Nobel Adonu.

KFA Official Delegate in Ghana
