

75th Anniverdary of the Korean People's Army.

Eternal President **Kim Il Sung** founded the Korean People's Army on February 8, 1948. It was a revolutionary force composed of the sons and daughters of the workers and peasants, along with veterans of the anti-Japanese Revolution.

The KPA repulsed the aggression of the imperialist forces in the Fatherland Liberation War, and defended the sovereignty and dignity of the country.

Great Leader **Kim Jong Il** initiated his leadership over the revolutionary armed forces in August 1960, and gave wise guidance to the work of developing the revolutionary armed forces into an army loyal to the Workers' Party of Korea, always under the banner of Songun Policy.

Great General Comrade **Kim Jong Il** paid primary attention to ideo-political education, so that all soldiers would take loyalty to the Party and the Leader.

He established the Korean People's Army as the revolutionary pillar and main force supporting the cause of the Party and the Leader.

Today, General Secretary **Kim Jong Un** further strengthened the Army in the politic-military field, for he put forward the identification of the People's Army with Kimilsungism-Kimjongilism as the general task. That is why the KPA is invincible.

Long live the Korean People's Army!
