

We extend our warmest congratulations to the Korean people on the great anniversary of the victory against the empire of the USA.

July 27th marks the beginning of hope for all anti-imperialist and progressive people of the world, when a small country fighting for its independence and future managed to win over the war machinery of the Yankees and its satellites.

We are confident that Korea, under the guidance of Marshal KIM JONG UN, will always remain glorious and have a bright red future.

Long live the Great Men of Mount Paektu!!! Long live the DPRK!!!
