

This day marks the 70th Anniversary of the Victory Day of the Korean War against the United States.

The glorious leader and commander of KPA Kim Il Sung

fought for Socialist Korea, which is a great nation for the Korean working class.

Many men were lost in this battle but DPRK and its leader Kim Il Sung rightfully won the battle against the imperialist USA.

This day is very important and reminder of KPA's strength. Manse!

I give full support to DPRK.
