Kavala, 27<sup>th</sup> July, Juche 112 (2023)

### **~70<sup>th</sup> Victory Day Anniversary on the Fatherland Liberation War~**

Kavala, July 27 (KFA Greece) -- Today marks the 70<sup>th</sup> anniversary of one of the greatest victories against imperialism in the 20<sup>th</sup> century. The Korean People, after decades of oppression under the Japanese Empire, finally embarked on their path to independence and liberation, only to have their dreams thwarted by the US imperialists, dividing the country and installing a brutal dictatorship in the south, creating a predisposition for fascism, which can be confirmed nowadays, if we look at the dystopian southern occupied part of Korea, where the people are suffering today as they suffered in the early stages of the fascist dictators' regimes that have occupied the peninsula's southern areas, under the guidance of the US imperialist war hounds.

After an attempt to completely purge the revolution from the north in 1950, and more precisely, planning the demolition of the independent north since early 1949, war broke out in 1950, and lasted for 3 long years, until the Korean People's Army, along with the aid of the People's Volunteer Army, -which received much respect from the Korean People- scored a costly victory against the US imperialists, forever destroying their wishes of turning Korea into a puppet state of imperialism, just to have broader access to Eastern Asia.

Despite the total devastation that People's Korea suffered to the warmongering US army, the Korean People rebuilt their country stronger than ever and flew their red banner even higher than before, successfully creating a country which would today celebrate its 70<sup>th</sup> anniversary of the Fatherland Liberation War, after having scored tremendous achievements in the housing, agricultural, military, cultural and many other sectors, without an ounce of doubt for their revolutionary spirit.

The Korean People's Army, Comrade **Kim Il Sung** and the Korean People, scored a victory that would be embroidered in their hearts forever, as even today, the People from all around the globe remember that victory and pay their respects to it, even if the imperialists convinced most people that the north simply invaded the south just to 'consolidate its power', even if false theories and fake stories of the DPRK about to collapse emerge day after day. The banner of the revolution flies higher than ever and the Workers' Party of Korea along with the leadership of Comrade **Kim Jong Un** and the valorous Korean people lift the hammer, sickle and brush high up to the sky, without faltering.

The Korean Friendship Association of Greece and its officials, members and even friends who curiously follow our activities, remember and pay upmost respect to the Korean People for reminding the US everyday of what happened in 1953 and how the spirit of the revolution will remain immortal, while constructing Socialism under the guidance and principles laid out by Comrades **Kim Il Sung, Kim Jong Il** and today, Comrade **Kim Jong Un**.

We will vow to strengthen the bonds between our People and increase solidarity with Juche Korea, until we eliminate every aspect that goes against its Socialist construction.

*LONG LIVE THE KOREAN PEOPLE'S ARMY AND THE KOREAN  
REVOLUTION!*

**민세!**
