

On the occasion of 70th Anniversary of The Fatherland Liberation War.

Dear Comrades and Friends,

Juche-Songun Greetings,

On this day 70 years ago, The DPRK emerged victorious against the imperialist forces and corrupt leadership of Syngman Rhee. The DPRK was attacked and invaded first by the imperialist forces and the puppet regime without pretext.

The hostile forces than blame The DPRK and came up with a narrative that The DPRK started the war. This of course was false and baseless. Thankfully The Revolutionary Armed Forces of Korea under the wise Leadership of Comrade KIM IL Sung manages to repel the invasion and liberate many cities in Korea. The Fatherland Liberation War was a serious blow to the imperialist forces as they were forced to surrender and accept the terms of the negotiations set by The DPRK.

After the war, The DPRK under the exploits of President KIM IL SUNG underwent rapid economic, social, and political development and made a quick recovery and development under the exploits and wise leadership of President KIM IL SUNG.

Till today, The DPRK armed with nuclear weapons deterrence strike fear in the hearts of the imperialist forces and enemies of The DPRK.
