

70 years of Great Victory.

July 27 marks the great victory in the Fatherland's Liberation War.

On that glorious day, the heroic Korean Masses, led by His Excellency the Great General, Eternal President KIM IL SUNG, the Korean People's Army and the Workers' Party of Korea, won a great victory in their struggle for socialism and independence in the Democratic People's Republic of Korea, and marked a milestone on the international scene, for it was also a victory for the oppressed peoples of the world, and for all the progressive nations of the planet.

It proved that no enemy is invincible no matter how powerful it may seem.

In this way, the DPRK opened a new era in History, by teaching antiimperialists of the world how to fight and win in building communism in the planet.

The Revolution was faithfully continued by His Excellency Great General KIM JONG IL, firmly securing the Victory by correctly applying the power of Songun Politics.

For this, yesterday and now, we are eternally grateful to the DPRK and to His Excellency General Secretary KIM JONG UN, for now, with his strong leadership, a great future awaits to Juche Korea as a socialist giant, powerful and prosperous. We assure you our unconditional help and support.

Thank you very much.
